Section 1. Definitions.

A. "Person" means any individual, firm, partnership, general partner of a partnership, limited liability company, registered limited liability partnership, foreign limited liability partnership, association, corporation (whether or not the corporation is, or would be if doing business in this state, subject to [state income tax act]), company, syndicate, estate, trust, business trust, trustee, trustee in bankruptcy, receiver, executor, administrator, assignee or organization of any kind.

B. "Taxpayer" means any person subject to the tax imposed by [State Corporate income tax act].

C. "Corporation" means any corporation as defined by the laws of this state, or organization of any kind treated as a corporation for tax purposes under the laws of this state, wherever located, which if it were doing business in this state would be a “taxpayer.” The business conducted by a partnership which is directly or indirectly held by a corporation shall be considered the business of the corporation to the extent of the corporation’s distributive share of the partnership income, inclusive of guaranteed payments to the extent prescribed by regulation.

D. "Partnership" means a general or limited partnership, or organization of any kind treated as a partnership for tax purposes under the laws of this state.

E. "Internal Revenue Code” means Title 26 of the United States Code of [date] [and amendments thereto] without regard to application of federal treaties unless expressly made applicable to states of the United States.
F. “Unitary business” means [a single economic enterprise that is made up either of separate parts of a single business entity or of a commonly controlled group of business entities that are sufficiently interdependent, integrated and interrelated through their activities so as to provide a synergy and mutual benefit that produces a sharing or exchange of value among them and a significant flow of value to the separate parts.]

[Drafter’s note: This portion of the definition is drafted to follow MTC Reg. IV (b), defining a “unitary business.” A state that does not wish to define unitary business in this manner should consider alternative language. In addition, this MTC Regulation defining unitary business includes a requirement of common ownership or control. A state which treats ownership or control requirements separately from the unitary business requirement will need to make additional amendments to the statutory language.]

Any business conducted by a partnership shall be treated as conducted by its partners, whether directly held or indirectly held through a series of partnerships, to the extent of the partner’s distributive share of the partnership's income, regardless of the percentage of the partner's ownership interest or the percentage of its distributive or any other share of partnership income. A business conducted directly or indirectly by one corporation is unitary with that portion of a business conducted by another corporation through its direct or indirect interest in a partnership if the conditions of the first sentence of this section F. are satisfied, to wit: there is a synergy, and exchange and flow of value between the two parts of the business and the two corporations are members of the same commonly controlled group.

G. “Combined group” means the group of all persons whose income and apportionment factors are required to be taken into account pursuant to Section 2.A. or 2.B. in determining the amount of a taxpayer’s income that is properly apportioned to this state [and each taxpayer’s share of the net business income or loss apportionable to this State, that income].

H. “Combined report” means the schedules that are attached to the tax return of one or more taxpayers, which reports the taxpayers’ income from sources within this state under the combined reporting method.

I. “United States” means the 50 states of the United States, the District of Columbia, and United States’ territories and possessions.

J. “Tax haven” means a jurisdiction that, during the tax year in question has no or nominal effective tax on the relevant income and:

(i) has laws or practices that prevent effective exchange of information for tax purposes with other governments on taxpayers benefiting from the tax regime;

(ii) has tax regime which lacks transparency. A tax regime lacks transparency if the details of legislative, legal or administrative provisions are not open and apparent or are not consistently applied among similarly situated taxpayers, or if the information needed by tax authorities to determine a taxpayer’s correct tax liability, such as accounting records and underlying documentation, is not adequately available;

(iii) facilitates the establishment of foreign-owned entities without the need for a local substantive presence or prohibits these entities from having any commercial impact on the local economy;
(iv) (iv) explicitly or implicitly excludes the jurisdiction’s resident taxpayers from taking advantage of the tax regime’s benefits or prohibits enterprises that benefit from the regime from operating in the jurisdiction’s domestic market; or
(v) (v) has created a tax regime which is favorable for tax avoidance, based upon an overall assessment of relevant factors, including whether the jurisdiction has a significant untaxed offshore financial/other services sector relative to its overall economy.

Section 2. Requirement to File a Combined reporting required, when: discretionary under certain circumstances.

A. A. Combined reporting required, when—A taxpayer engaged in a unitary business with one or more other corporations shall file a combined report which includes the income, determined under Section 3.C. of this act, and apportionment factors, determined under [provisions on apportionment factors and Section 3.B. of this act], of all corporations that are members of the unitary business, and unless an election is made to file on a water’s edge basis as provided under Section 5, and includes such other information as required by the Director.

B. B. Combined reporting at Director’s discretion, when—The Director may, by regulation, require the combined report to include the income and associated apportionment factors of any persons that are not included pursuant to Section 2.A., but that are members of a unitary business, in order to reflect proper apportionment of income of the entire unitary businesses. Authority to require combination by regulation under this Section 2.B. includes authority to require combination of persons that are not, or would not be if doing business in this state, subject to the [State income tax Act].

In addition, if the Director determines that the reported income or loss of a taxpayer engaged in a unitary business with any person not included pursuant to Section 2.A. represents an avoidance or evasion of tax by such taxpayer, the Director may, on a case by case basis, require all or any part of the income and associated apportionment factors of such person be included in the taxpayer’s combined report.

With respect to inclusion of associated apportionment factors pursuant to Section 2.B., the Director may require the exclusion of any one or more of the factors, the inclusion of one or more additional factors which will fairly represent the taxpayer's business activity in this State, or the employment of any other method to effectuate a proper reflection of the total amount of income subject to apportionment and an equitable allocation and apportionment of the taxpayer's income. to this state.

Section 3. Determination of taxable income or loss using combined report.

The use of a combined report does not disregard the separate identities of the taxpayer members of the combined group. Each taxpayer member is responsible for tax based on its taxable income or loss apportioned or allocated to this state, which shall include, in addition to other types of income, the taxpayer member’s apportioned share of business income of the combined group, where business income of the combined group is calculated as a summation of the
individual net business incomes of all members of the combined group. A member’s net
business income is determined by removing all but business income, expense and loss from that
member’s total income, as provided in detail below.

A. Components of income subject to tax in this state; application of tax credits and post
apportionment deductions.

i. Each taxpayer member is responsible for tax based on its taxable income or loss apportioned or
allocated to this state

A. Calculation of base income for combined reporting

The combined group’s apportionable net income shall be the aggregate
apportionable net income or loss of each member of the combined group derived from
a unitary business, which shall include:
(a) its share of any business income apportionable to this State of each of the combined
groups of which it is a member, determined under Section 3.B.;
(b) its share of any business income apportionable to this State of a distinct business
activity conducted within and without the state wholly by the taxpayer member, determined
under [provisions for apportionment of business income],
(c) its income from a business conducted wholly by the taxpayer member entirely within the
state,
(d) its income sourced to this state from the sale or exchange of capital or assets;
and from involuntary conversions, as determined under Section 3.C.ii.(g), below,
(e) its nonbusiness income or loss allocable to this State, determined under [provisions for
allocation
of non-business income],
(f) its income or loss allocated or apportioned in an earlier year, required to be taken into
account as state source income during the income year, other than a net operating loss, and
(g) its net operating loss carryover or carryback. If the taxable income computed pursuant
to Section 3 results in a loss for a taxpayer member of the combined group, that taxpayer
member has a [state] net operating loss (NOL), subject to the net operating loss limitations,
carryforward and carryback provisions of [provisions on NOLs]. Such NOL is applied as a
deduction in a prior or subsequent year only if that taxpayer has [State] source positive net
income, whether or not the taxpayer is or was a member of a combined reporting group in the
prior or subsequent year.

ii. Except where otherwise provided, no tax credit or post apportionment deduction earned by
one member of the group, but not fully used by or allowed to that member, may be used in whole
or in part by another member of the group or applied in whole or in part against the total income of
the combined group; and a post apportionment deduction carried over into a subsequent year as to
the member that incurred it, and available as a deduction to that member in a subsequent year, will
be considered in the computation of the income of that member in the subsequent year, regardless
of the composition of that income as apportioned, allocated or wholly within this state.

B. Determination of taxpayer’s share of the business income of a combined group
apportionable to this
State.
The taxpayer’s share of the business income apportionable to this State of each combined group of which it is a member shall be the product of:

i. the business income of the combined group, determined under Section 3.C., and

ii. the taxpayer member’s apportionment percentage, determined under [provisions on apportionment factors], including in the [property, payroll and sales factor] numerators the taxpayer’s [property, payroll and sales, respectively] associated with the combined group’s unitary business in this state, and including in the denominator the [property, payroll and sales] of all members of the combined group, including the taxpayer, which property, payroll and sales are associated with the combined group’s unitary business wherever located. The [property, payroll, and sales] of a partnership shall be included in the determination of the partner’s apportionment percentage in proportion to a ratio the numerator of which is the amount of the partner’s distributive share of partnership’s unitary income included in the income of the combined group in accordance with Section 3.C.ii.(c), and the denominator of which is the amount of the partnership’s total unitary income.

C. Determination of the business income of the combined group.

The business income of a combined group is determined as follows:

i. From the total income of the combined group, determined under Section 3.C.ii., subtract any income, and add any expense or loss, other than the business income, expense or loss of the combined group.

ii. Except as otherwise provided, the total income of the combined group is the sum of the income of each member of the combined group determined under federal income tax laws, as adjusted for state purposes, as if the member were not consolidated for federal purposes. The income of each member of the combined group shall be determined as follows:

(1) (a) For any member incorporated in the United States, or that is included in a consolidated federal corporate income tax return and filing a federal corporate income tax return, the income to be included in the total income of calculating the combined group’s apportionable net income shall be the taxable income for the corporation after making appropriate such member’s gross income, less the deductions provided under [state adjustments under [state tax code provisions for adjustments to taxable income] to base income], as if the member were not consolidated for federal tax purposes.

(2) (b) (i) For any member not included in Section 3.C.ii.(a), consolidated federal corporate income tax return but required to file its own federal corporate income tax return, the income to be included in the total income of calculating the combined group’s apportionable net income shall be such member’s gross income, less the deductions provided under [state adjustments to base income].

For any member not incorporated in the United States, not included in a consolidated federal corporate income tax return and not required to file its own federal corporate income tax return, the income to be included in the combined group’s apportionable net income shall be determined as follows:
(A) A profit and loss statement that shall be prepared for each foreign branch or corporation in the currency in which the books of account of the branch or corporation are regularly maintained.

(B) Adjustments shall be made to the profit and loss statement, adjusted to conform it to the accounting principles generally accepted in the United States for the presentation of such statements except as modified by this regulation.

(C) Adjustments shall be made to the profit and loss statement to conform it to the tax accounting standards and further adjusted to take into account any book-tax differences required by the federal or [state tax code].

(D) Except as otherwise provided by regulation, the law. The profit and loss statement of each such member of the combined group, and the apportionment factors related thereto, whether United States or foreign, shall be translated into the currency in which the parent company maintains its books and records, or from the currency in which the parent company maintains its books and records on any reasonable basis consistently applied on a year-to-year or entity-by-entity basis. Income shall be expressed in United States dollars. In lieu of these procedures and subject to the determination of the commissioner that the income to be reported reasonably approximates income as determined under this chapter, income may be determined on any reasonable basis consistently applied on a year-to-year or entity-by-entity basis.

(E) Income apportioned to this state shall be expressed in United States dollars.

(2) (A) If the unitary business has income from an entity that is treated as a pass-through entity, the combined group's apportionable net income shall include its member's direct and indirect distributive share of the pass-through entity's unitary business income.

(B) The distributive share of income received by a limited partner from an investment partnership shall not be considered to be derived from a unitary business unless the general partner of such investment partnership and such limited partner have common ownership.

(2) In lieu of the procedures set forth in Section 3.C.ii.(b)(1), above, and subject to the determination of the Director that it reasonably approximates income as determined under [the State tax code], any member not included in Section 3.C.ii.(a) may determine its income on the basis of the consolidated profit and loss statement which includes the member and which is prepared for filing with the Securities and Exchange Commission by related corporations. If the member is not required to file with the Securities and Exchange Commission, the Director may allow the use of the consolidated profit and loss statement prepared for reporting to shareholders and subject to review by an independent auditor. If above statements do not reasonably approximate income as determined under [the State tax code] the Director may accept those statements with appropriate adjustments to approximate that income.

(c) If a unitary business includes income from a partnership, the income to be included in the total income of the combined group shall be the member of the combined group's direct and indirect distributive share of the partnership's unitary business income.

(d) All dividends paid by one member to another member of the combined group shall, to the extent those dividends are paid out of the earnings and profits of the unitary business included in the combined report, in the current or an earlier year, be eliminated from the income of the recipient. This provision
The principles set forth in the Treasury regulations promulgated under Section 1502 of the Internal Revenue Code, including the principles relating to deferrals, eliminations, and exclusions, shall not apply to dividends received from members of the same combined group membership and combined unitary business which are not a part of the combined group.

(e) Except as otherwise provided by regulation, business income from an intercompany transaction between members of the same combined group shall be deferred in a manner similar to 26 CFR 1.1502-13—reporting principles. Upon the occurrence of any either of the following events, deferred business income resulting from an intercompany transaction between members of a combined group shall be restored to the income of the seller, and shall be apportioned as if the seller had earned the income immediately before the event:

1. (A) The object of a deferred intercompany transaction is
   (1) re-sold; (i) Resold by the buyer to an entity that is not a member of the combined group,
   (B) re-sold (ii) resold by the buyer to an entity that is a member of the combined group for use outside the unitary business in which the buyer and seller are engaged,
   (C) (i) converted by the buyer to a use outside the unitary business in which the buyer and seller are engaged; or
   (2) the buyer and seller are no longer members of the same combined group, regardless of whether the members remain unitary.

4. (b) A charitable expense incurred by a member of a combined group shall, to the extent allowable as a deduction pursuant to Section 170 of the Internal Revenue Code, be subtracted first from the business income of the combined group (group’s apportionable net income, subject to the income limitations of that said section applied to the entire business income of the group), and any remaining amount shall then be treated as a nonbusiness expense allocable to the member that incurred the expense (subject to the income limitations of that section applied to the nonbusiness income of that specific member). Any charitable deduction disallowed under the foregoing rule, but allowed as a carryover deduction in a subsequent year, shall be treated as originally incurred in the subsequent year by the same member, and the rules of this section shall apply in the subsequent year in determining the allowable deduction for that year.

(g) Gain or loss from the sale or exchange of capital assets, property described by Section 1231(a)(3) of the Internal Revenue Code, and property subject to an involuntary conversion, shall be removed from the total separate apportionable net income of each member of a combined group and shall be apportioned and allocated into the combined group’s apportionable net income as follows:

1. (A) For each class of gain or loss, whether short-term capital, long-term capital, Section 1231 of the Internal Revenue Code, and gain or loss, or gain or loss from involuntary conversions, all members’ business gain and loss for the class shall be combined (without netting before among such classes), and each class of net business gain or loss separately shall be apportioned to each member using the member’s apportionment percentage determined under Section 3.B., above.

2. Each taxpayer member shall then net its apportioned business gain or loss for all classes, including any such apportioned business gain and loss from other combined groups, against the taxpayer member’s nonbusiness gain and loss for all classes allocated to this.
State, using the rules of Internal Revenue Code Sections 1231 and 1222, without regard to any of the taxpayer member's gains or losses from the sale or exchangesubsection (b) of capital assets, Section 1231 property, and involuntary conversions which are nonbusiness items allocated to another state.

(3) Any resulting state source income (or loss, if apportioned to this state, as long as the loss is not subject to the limitations of Internal Revenue Code Section 1211) of the Internal Revenue Code, of a taxpayer taxable member produced by the application of the preceding subsection, subparagraph (A) of this subdivision shall then be applied to all other state source income or loss of that member. apportioned to this state.

(4) Any resulting state source loss of a member apportioned to this state that is subject to the limitations of said Section 1211 shall be carried forward [or carried back] by that member, and shall be treated as state source short-term capital loss apportioned to this state and incurred by that member for the year for which the carryover [or carryback] applies.

(5)(a) Any expense of any member of the unitary group which is directly or indirectly attributable to the nonbusiness or income of any member of the combined group which is non-apportionable, exempt income of another member of the unitary group shall be allocated to that other member as corresponding nonbusiness or exempt expense, as appropriate, from taxation by this state, or which income this state is prohibited from taxing pursuant to the laws or Constitution of the United States, shall be disallowed as a deduction for purposes of determining the combined group's apportionable net income.

Section 4.

(10) The amount of income or loss apportioned to this state by the unitary group shall be adjusted by the total amount of income or loss allocated to this state pursuant to [state allocation rules].

(11)(a) A net operating loss sustained by the combined group in a combined report year is allocated among the members of the group that reported losses on their pro forma Federal 1120s, after elimination of intercompany transactions between members of the combined unitary group and appropriate allocations. The amount allocated to each member will be determined by dividing that member's loss (after elimination of intercompany transactions) by the total losses (after elimination of intercompany transactions) of all members of the combined unitary group in that tax year.

(11)(b) Net operating loss carryforwards will be considered used in order beginning with the earliest tax year. If more than one corporation brought net operating losses from the same tax year into the combined unitary group and a portion of the losses from that year is used, the amount of used net operating losses will be prorated among the members bringing losses from that year based on the ratio of each member's losses to the total losses carried forward from that year.

(11)(c) Any unused portion of the group's net operating losses allocated to a corporation that was a member of the group remains with that entity if that entity is no longer a member of the combined group and may be claimed by that corporation in the tax years after the corporation ceases to be a part of the group. The combined group cannot use the unused loss allocated to the
corporation that left the group after that corporation is no longer a member of the combined group.

(12) The eligibility for and calculation of a tax credit amount is determined at the separate entity level but can be used against the group income. Any unused carryforward of a tax credit earned by a member of the combined unitary group remains with that entity if that entity is no longer a member of the combined group or the group is no longer required to file a combined return. This is applicable whether the credit was earned by the entity before becoming a member of the combined group or while a member of the combined group.

B. Calculation of Apportionment Factors for Combined Group

A unitary business that files a combined report shall use an apportionment formula that combines the [property, payroll, and receipts] of all of the unitary group members before calculating the factors.

(1) The receipts factor is a fraction, the numerator of which is the total sales of all the members of the combined group in this State during the tax period, and the denominator of which is the total sales of all the members of the combined group everywhere during the tax period.

For purposes of determining whether receipts are in this state and included in the numerator of the receipts factor, all receipts of the combined group properly assigned to this state under this section shall be included in the receipts factor numerator for this state if any member of the combined group is taxable in this state. In addition, a taxpayer shall be considered taxable in another state for purposes of calculating the receipts factor if any member of the combined group is taxable in that state.

(2) The property factor is a fraction, the numerator of which is the average value of the all the combined group’s real and tangible personal property owned or rented and used in this State during the tax period, and the denominator of which is the average value of the all the combined groups’ real and tangible personal property owned or rented and used everywhere during the tax period.

(3) The payroll factor is a fraction, the numerator of which is the total payroll of all the members of the combined group paid in this State during the tax period, and the denominator of which is the total payroll of all the members of the combined paid group everywhere during the tax period.

(4) Single return. The combined group must file a single return on which the aggregate [state] income tax liability of all those persons in the combined group is reported. The income of the
combined group is the apportionable net income of the entire group. All members of the combined group must be included in the single return.

The single return must be filed under the name and federal employer identification number of the parent corporation if the parent is a member of the combined group. If there is no parent corporation, or if the parent is not a group member, the members of the combined group must choose a member to file the return. The filing member must remain the same in subsequent years unless the filing member is no longer the parent corporation or is no longer a member of the combined group. The return must be signed by a responsible officer of the filing member on behalf of the combined group members. The [state] combined report of the combined group must be attached to the [state] corporate income tax return. Members of the combined group are jointly and severally liable for the tax liability of the members of the combined group included in the combined return.

Section 4. Designation of surety.

As a filing convenience, and without changing the respective liability of the group members, members of a combined reporting group may annually elect to designate one taxpayer member of the combined group to file a single return in the form and manner prescribed by the department, in lieu of filing their own respective returns, provided that the taxpayer designated to file the single return consents to act as surety with respect to the tax liability of all other taxpayers properly included in the combined report, and agrees to act as agent on behalf of those taxpayers for the year of the election for tax matters relating to the combined report for that year. If for any reason the surety is unwilling or unable to perform its responsibilities, tax liability may be assessed against the taxpayer members.

Section 5. Water’s-edge election; initiation and withdrawal.

A. Water’s-edge election.

Taxpayer members of a unitary group that meet Subject to the requirements of Section 54.B., the combined group may elect to determine each of their apportioned shares of the net business income or loss of the combined group pursuant to a water’s-edge election. Under such election, taxpayer members the combined group shall take into account all or a portion of the income and apportionment factors of only the following members otherwise included in the combined group pursuant to Section 2, as described below:

i. the entire income and apportionment factors of any member incorporated in the United States or formed under the laws of any state, the District of Columbia, or any territory or possession of the United States;

ii. the entire income and apportionment factors of any member, regardless of the place incorporated or formed, if the average of its property, payroll, and sales factors within the United States is 20 percent or more;

iii. the entire income and apportionment factors of any member which is a domestic international sales corporation as described in Internal Revenue Code Sections 991 to 994, inclusive; a foreign sales corporation as described in Internal Revenue Code Sections 921
to 927, inclusive; or any member which is an export trade corporation, as described in Internal
Revenue Code Sections 970 to 971, inclusive;

iv. iv. any member not described in [Section 5.A.i.] to [Section 5.A.iii.], inclusive, shall
include the portion of its income derived from or attributable to sources within the United
States, as determined under the Internal Revenue Code without regard to federal treaties, and its
apportionment factors related thereto;

v. v. any member that is a “controlled foreign corporation,” as defined in Internal Revenue
Code Section 957, to the extent of the income of that member that is defined in Section 952 of
Subpart F of the Internal Revenue Code (“Subpart F income”) not excluding lower-tier
subsidiaries’ distributions of such income which were previously taxed, determined without
regard to federal treaties, and the apportionment factors related to that income; any item of
income received by a controlled foreign corporation shall be excluded if such income was
subject to an effective rate of income tax imposed by a foreign country greater than 90 percent
of the maximum rate of tax specified in Internal Revenue Code Section 11;

vi. vi. any member that earns more than 20 percent of its income, directly or indirectly,
from intangible property or service related activities that are deductible against the
business apportionable income of other members of the combined group, to the extent of that
income and the apportionment factors related thereto; and

vii. vii. the entire income and apportionment factors of any member that is doing business
in a tax haven, where “doing business in a tax haven” is defined as being engaged in activity
sufficient for that tax haven jurisdiction to impose a tax under United States constitutional
standards. If the member’s business activity within a tax haven is entirely outside the scope of
the laws, provisions and practices that cause the jurisdiction to meet the criteria established in
Section 1.I., the activity of the member shall be treated as not having been conducted in a tax
haven.

B. Initiation and withdrawal of election

i. i. A water’s-edge election is effective only if made on a timely-filed, original return for a
tax year by every member of the unitary business subject to tax under [state income tax code]-the
combined group. The Director shall develop rules and regulations governing the impact, if any,
on the scope or application of a water’s-edge election, including termination or deemed election,
resulting from a change in the composition of the unitary group, the combined group, the
taxpayer members, and any other similar change.

ii. ii. Such election shall constitute consent to the reasonable production of documents and
taking of depositions in accordance with [state statute on discovery].

iii. iii. In the discretion of the Director, a water’s-edge election may be disregarded in part
or in whole, and the income and apportionment factors of any member of the taxpayer's unitary
group may be included in the combined report without regard to the provisions of this section, if
any member of the unitary group fails to comply with any provision of [this act] or if a person
otherwise not included in the water's-edge combined group was availed of with a substantial
objective of avoiding state income tax.

iv. iv. A water’s-edge election is binding for and applicable to the tax year it is made and
all tax years thereafter for a period of 10 years. It may be withdrawn or reinstated after
withdrawal, prior to the expiration of the 10 year period, only upon written request for reasonable cause based on extraordinary hardship due to unforeseen changes in state tax statutes, law, or policy, and only with the written permission of the Director. If the Director grants a withdrawal of election, he or she shall impose reasonable conditions as necessary to prevent the evasion of tax or to clearly reflect income for the election period prior to or after the withdrawal. Upon the expiration of the 10 year period, a taxpayer may withdraw from the water’s edge election. Such withdrawal must be made in writing within one year of the expiration of the election, and is binding for a period of 10 years, subject to the same conditions as applied to the original election. If no withdrawal is properly made, the water’s edge election shall be in place for an additional 10 year period, subject to the same conditions as applied to the original election.
