Uniformity Committee Meeting  
Monday, July 27, 2020  
2:00 P.M. – 5:00 P.M. Eastern  
(Held via Video Conference)

New Project Selection Work Group Status Report
Maria Sanders (Missouri), Work Group Chair
Helen Hecht, MTC Uniformity Counsel

Information on the work group is available on the project page on the MTC website, here: http://www.mtc.gov/Uniformity/Project-Teams/New-Project-Selection-Project-Work-Group.

I. Attached is the proposed process, as most recently revised and approved by the work group for recommendation to the committee.

There are a couple things to note about this proposal.

- While the process lays out separate steps, it is expected those steps will be done on a fairly continuous basis.
- The work group was generally of the opinion that the process should not be rigid or overly formalized so as to allow the committee flexibility to act quickly when necessary.
- The process calls for the establishment of a standing subcommittee to help review and make recommendations on potential new projects.
- One of the important sources of new projects would be issues that states are moving to address and laws or regulations that can be used as a starting point. Another important source would be taxpayers and practitioners—especially representatives of small and medium-sized businesses.
- While the typical project might involve drafting a uniform or model law, the process for identifying and selecting new projects would not be limited to only those projects. For a recent example of a different approach, see the White Paper produced by the Wayfair/Marketplace Implementation work group.

II. Also attached is a prototype staff report that might be produced under step 1 of the process.
