KEY MESSAGES FOR 2013-2014:

**What are we doing now?**

- We have completed three projects to help us achieve our goals, one related to our engagement goal and two related to our compliance goal.

**What is a strategic plan and what does it mean for the MTC?**

- A strategic plan is a tool for setting priorities and focusing the efforts and resources of an organization to achieve its primary purpose.
- Our plan sets the MTC’s direction for the next 5-7 years.
- The strategic plan establishes specific goals and objectives to help the MTC achieve its primary purpose.
- The strategic plan also gives us a process to establish and update our priorities for investing our time and resources.

**What have we accomplished so far?**

- The Commission has adopted the key building blocks of our strategic plan:
  - Mission – a statement of the core purpose for the MTC
  - Values – the key principles that drive the MTC’s actions
  - Vision – the high level direction for the MTC over the next 5-7 years
  - Goal areas – the key areas in which we need to focus in order to achieve our vision
- The Steering Committee initiated a project to increase state and top tax administrator engagement in MTC activities. That project has been completed and the new program has been integrated into the regular operations of the Commission.
- The Steering Committee chartered two teams to work on projects related to the multistate audit program. Those work teams completed their work and the new audit nomination process and early audit closure procedure will be implemented in 2013-14.

**What will happen next?**

- The Steering Committee is monitoring the progress and effectiveness of the Engagement program.
- The Steering Committee will develop strategies to integrate strategic planning practices into the business operations of the MTC.
- The Steering Committee will develop a formal charter and planning calendar for its ongoing work.

STRATEGIC GOAL AREAS - Areas in which MTC must focus in order to achieve its vision

Vitality and reputation of the commission – Our goal is to improve our image and reputation nationally. Increased vitality and reputation of the MTC will be reflected by:

- A higher level of institutional knowledge within the states about the MTC.
- A more stable model for funding the activities and services of the MTC.
- A more positive image and reputation nationally.
- A higher level of awareness and use of the MTC's services by state and local tax authorities.
- More effective and efficient decision-making processes and communication.

Engagement of states and other stakeholders – Our goal is to increase the level of institutional knowledge within the states about MTC. Greater engagement of the states and other stakeholders in the MTC will be reflected by:

- A high level of participation by states and local jurisdictions in the activities of the MTC.
- A significant number of top tax administrators will be directly involved in leadership of the MTC.
- Significant public participation in commission activities.
- Significant public use of MTC services such as voluntary disclosure and alternative dispute resolution.
- Strong relationships and strategic partnerships that help the MTC achieve its mission and vision.

Uniformity – Our goal is to increase uniformity in tax policy and administrative practices among the states. Achievement of the MTC’s uniformity goal will be reflected by:

- Greater adoption of uniformity recommendations by state and local tax jurisdictions.
- Uniformity projects will have the greatest value to the states and stakeholders.
- More multistate tax issues will be referred first to the MTC for recommendation or resolution by the states, taxpayers and the federal government.

Compliance programs – Our goal is to develop timely and effective strategies to address new compliance challenges. Achievement of the MTC’s compliance goals will be reflected by:

- Greater voluntary compliance by taxpayers with state and local tax laws.
- Earlier identification of compliance challenges by the states and MTC staff.
- Prompt development of strategies to address new compliance challenges by the states and MTC staff.
Project Descriptions - 2012-13

**Project description: Early Audit Closure**

This project developed a process and standards for an MTC auditor to determine that there is no potential for a material audit adjustment for a state or states after commencement of an audit, but before the development of a complete audit report and without the need to prepare full audit schedules. The determination would close the audit process for the affected state tax returns. The new procedure will be implemented during 2013-14.

**Project description: Audit Nominating Process Review**

This project involved a comprehensive review of the process for nominating audit candidates. The modified process will take less time to complete and produce higher quality audit nominations. It reduced the work that the states and MTC staff need to do in order to complete the nomination process. The modified process will be implemented during 2013-14.

**Project description: Commissioner Outreach & Education Project**

This project developed and implemented a formal program that the MTC uses to reach out to new tax administrators. These activities are integrated into the annual calendar of events. They are designed to provide key information about the MTC and the state’s involvement in MTC promptly, and to initiate and sustain contact between the MTC and the states.
