Financial Institutions Apportionment Property Factor Issues for Discussion (2-22-2012)

1. Clarify "change of material fact"

- a. Current Language: §4(i) Period for which properly assigned loan remains assigned. A loan that has been properly assigned to a state shall, absent any change of material fact, remain assigned to said state for the length of the original term of the loan. Thereafter , said loan may be properly assigned to another state if said loan has a preponderance of substantive contact to a regular place of business there.
- **b. Problem to be Addressed:** The term "change of material fact" in the loan assignment rule is undefined. A question has arisen as to whether the sale of a loan or pool of loans to another entity within the same controlled group of corporations as the seller constitutes a material change of fact. Both taxpayers and tax administrators would benefit from objective criteria to determine when there has been a material change of fact.

c. Issues and Options:

- i. Should the model explicitly describe how sale of loans within the same controlled group will be treated? **YES:**
 - (i)(1) The direct or indirect [acquisition or] transfer of a loan or a pool of loans to or from an entity that is within the same controlled group of corporations is not a change of material fact. But, this prohibition does not, by itself, preclude other possible changes of fact from being considered in determining whether there has been a change of material fact.
 - ii. Should treatment of other transaction types also be explicitly described, such as:
 - The acquisition of the stock of an entity that owns loans. YES addressed as "direct or indirect" in (i)(1)
 - 2. The acquisition of a loan or pool of loans from an entity that is not within the same controlled group of corporations. **See options in draft statute**
 - 3. Credit card payments, renewals, etc. [e.g., if a loan has no fixed term, then should the "term of the loan" be the term of the agreement between the

financial institution and the borrower, or the expiration date of the card, etc.?]

- iii. Should "controlled group" be defined? Group members have suggested alternatives -
 - 1. A definition specifically for financial institution apportionment "change of material fact" purposes:

For purposes of this subsection, "controlled group of corporations" means "controlled group of corporations" as defined in Section 1563(a) of the Internal Revenue Code, except that:

(A) "More than 50 percent" shall be substituted for "at least 80 percent" each place it appears in Section 1563(a)(1) of the Internal Revenue Code. (B) The determination shall be made without regard to subsections (a)(4) and (e)(3)(C) of Section 1563 of the Internal Revenue Code.

OR

- 2. Alternative language for combine reporting and non-combined reporting
 - a. Combined reporting:

For purposes of this subsection, "controlled group of corporations" means 'controlled group of corporations' as defined in Section 1563(a) of the internal Revenue Code, except that the definition that the state uses for defining unitary ownership or control shall be substituted for "at least 80 percent" each place it appears in Section 1563(a)(1) of the Internal Revenue Code.

b. Non-combined reporting:

For purposes of this subsection, "controlled group of corporations" means 'controlled group of corporations' as defined in Section 1563(a) of the internal Revenue Code.

OR

- 3. A drafter's note instructing that states refer to existing statutory definitions, as follows:
 - a. Combined reporting states: use the same definition that the state uses for defining "ownership or control"
 - b. Non-Combined reporting states:
 - i. If have an add-back statute: use definition of "related" or "affiliated" entity.
 - ii. If no add-back statute: For purposes of this subsection,
 - "controlled group of corporations" means For purposes of this subsection, "controlled group of corporations" means "controlled group of corporations" as defined in <u>1563(a) of the Internal Revenue Code</u>, except that "more than 50 percent" shall be substituted for "at least 80 percent" each place it appears in Section 1563(a)(1) of the Internal Revenue Code.

2. Update and Clarify the SINAA loan assignment rule (will be fleshed out further)

- **a.** What should the rule apply to? (e.g., a loan, a group of loans, how to determine the group?)
- **b.** What should the rule be?

- i. Which activities? (add and/or subtract from "SINAA")?
- ii. How to measure the activities (e.g., employees, costs, etc.)?
- iii. How to weight the activities (equal weight, self weight, etc.)?
- c. What changes are then needed for the presumptions? (section 4(g)(1)(B)-(C))
