Utah Taxpayer Advocate Service

The Taxpayer Advocate Service helps taxpayers who have made multiple, unsuccessful attempts to resolve concerns with the Tax Commission. This service helps resolve problems when normal agency processes break down, identifies why problems occurred, and suggests solutions. See tax.utah.gov/contact, or contact us to find out if you qualify for this service at 801-297-7562 or 1-800-662-4335, ext. 7562, or by email at taxpayeradvocate@utah.gov.

General Instructions and Information

What's New

- **Student Prosperity Savings Program:** The 2017 Utah Legislature passed HB 24, creating the Student Prosperity Savings Program. Donations to a program account may qualify for a subtraction from unadjusted income. See page 16.
- **Targeted Business Credit:** You must contact the Governor's Office of Economic Development (GOED) to claim the Targeted Business Credit starting tax year 2017.

Reminders

- **Utah Net Loss Carryback:** Use form TC-20L, *Utah Application for Refund from a Corporation Loss Carryback*, to carry a Utah net loss back three years. See page 8.
- **Market Sourcing of Revenues from Performance of Services by Multi-state Taxpayers:** Corporations performing a service both in and outside of Utah must calculate the sales factor numerator on Schedule J by considering the service income to be in Utah if the buyer receives a greater benefit of the service in Utah than in any other state. See *Schedule J – Apportionment Schedule* in this book.
- **Foreign Operating Company Changes:** A foreign operating company must have a minimum of at least \$1,000,000 in payroll located outside the United States and at least \$2,000,000 in property located outside the United States. In addition, income generated from transactions between members of the unitary group, or from intangible property or an asset held for investment does not qualify for the 50 percent foreign operating company income exclusion on Schedule C. See pages 4 and 15.

Electronic Filing

Utah corporation returns may be filed electronically under a joint program between the Internal Revenue Service and the Utah State Tax Commission.

The federal and state information is submitted at the same time and the IRS extracts its federal data and forwards the state data to the Tax Commission. No papers need to be mailed to the agencies when filing electronically.

Check with your software provider to see if they offer electronic corporation filing.

Learn more about filing your corporation return electronically at tax.utah.gov/developers/mef.

Identification Numbers

Utah uses the Federal Employer Identification Number (EIN) as the corporation's identification number with the state. The Utah Department of Commerce also issues a registration number upon incorporation or qualification in Utah. Enter both the EIN and Utah Incorporation/Qualification number in the proper fields. These numbers are used for identification of the corporate tax return.

Corporation Changes

Corporation changes (e.g., name change, physical and/or mailing address changes, merger, or ceasing to do business in Utah) must be reported in writing to both:

UT Division of Corporations and Commercial Code
Department of Commerce
160 E 300 S
PO Box 146705
Salt Lake City, UT 84114-6705

and

Master Records
Utah State Tax Commission
210 N 1950 W
Salt Lake City, UT 84134-3310

Dissolution or Withdrawal

Corporations that cease to do business in Utah must either dissolve or withdraw the corporation.

Corporations incorporated in Utah must file *Articles of Dissolution* with the Department of Commerce.

Corporations incorporated outside of Utah (foreign corporations) must obtain a *Certificate of Tax Clearance* from the Tax Commission before withdrawing from Utah. Foreign corporations must file an *Application for Withdrawal* with the Department of Commerce.

To request a *Certificate of Tax Clearance*, contact the Tax Commission. We will prepare form TC-2001 and send it to you to complete.

Dissolving and withdrawing corporations must also close their other Utah tax accounts (sales, withholding, etc.). To close related tax accounts, send a completed TC-69C, *Notice of Change for a Business and/or Tax Account*, to the attention of Master Records at the Tax Commission address above.

Rounding Off to Whole Dollars

Round off cents to the nearest whole dollar. Round down if cents are under 50 cents; round up if cents are 50 cents and above. **Do not enter cents anywhere on the return.**

Liability for Filing and Paying

Tax Forms

The Tax Commission does not mail forms for filing corporate taxes. Get Utah forms at tax.utah.gov/forms or by calling the Forms Hotline at 801-297-6700 or 1-800-662-4335, ext. 6700.

Note: See *What to Attach and What to Keep* later in these General Instructions for what federal information is required with the Utah return.

Franchise Tax

Every C corporation incorporated in Utah (domestic), qualified in Utah (foreign), or doing business in Utah, whether qualified or not, must file a corporate franchise tax return. C corporation returns are filed on form TC-20. Every corporation that files form TC-20 must pay a minimum tax (privilege tax) of \$100, regardless of whether or not the corporation exercises its right to do business.

S Corporation

Every S corporation (as defined in IRC Section 1361(a)) that has filed a proper and timely election under IRC Section 1362(a) must file form TC-20S, so long as the federal election remains in effect. The minimum tax does not apply to S corporations.

Income Tax

Corporate income tax filers use form TC-20.

Corporations required to file under the income tax provisions are those that derive income from Utah sources, but are not qualified to do business in Utah and have no regular and established place of business in Utah, either owned or rented, and do not maintain an inventory or have employees located at a place of business in Utah.

Example 1:

A trucking company, operated in or through Utah by a foreign corporation not qualified to do business in Utah, is subject to income tax rather than franchise tax.

Example 2:

A lender issuing credit cards to Utah customers from outside Utah that is not qualified to do business in Utah and has no place of business in Utah is subject to income tax rather than franchise tax.

A \$100 minimum tax applies to the corporate income tax.

Federal Form 1120-IC-DISC

If the corporation is filing a federal form 1120-IC-DISC and is not owned 50 percent or more by another corporation, none of its income is taxable to the corporation but must be passed-through to the DISC corporation shareholders who would report and pay tax on the distribution on their personal or business tax returns.

Taxable Year

The taxable year for Utah tax purposes must match the taxable year used for federal tax purposes. When the taxable year changes for federal purposes, the taxable year must be changed for Utah purposes. Refer to *Filing Return When Period Changed* below.

Filing Return When Period Changed

When changes are made to the taxable year, as indicated under *Taxable Year* above, a short-period return is required. The short-period return must cover the period of less than 12 months between the prior taxable year-end and the new

taxable year. The tax rates as provided in UC §§59-7-104 and 59-7-201 apply to short-period returns, which includes a minimum tax of \$100.

Where to File

Mail your return to:

Utah State Tax Commission
210 N 1950 W
Salt Lake City, UT 84134-0300

Due Date

A return must be filed on or before the 15th day of the fourth month following the close of the taxable year. If the due date falls on a Saturday, Sunday or legal holiday, the due date becomes the next business day.

Filing Extension

Corporations are automatically allowed an extension of up to six months to file a return without filing an extension form. **This is NOT an extension of time to pay your taxes – it is only an extension of time to file your return.** To avoid penalty, the prepayment requirements must be met on or before the original return due date, and the return must be filed within the six-month extension period.

Prepayment Requirements

Extension Prepayments

The required extension prepayments must equal 90 percent of the current year's tax liability (or the \$100 minimum tax, whichever is greater) or 100 percent of the previous year's tax liability. The tax used to compute the 90 percent amount includes the interest on installment sales and the recapture of low-income housing credit on the return.

Corporations must make estimated prepayments using form TC-559, *Corporation/Partnership Payment Coupon*.

Quarterly Payments

Every corporation having a Utah tax liability of \$3,000 or more in the current taxable year, or a tax liability of \$3,000 or more in the previous taxable year, must make quarterly estimated tax payments. In addition, a parent company filing a combined report with affiliated companies must make the quarterly payment when the aggregate tax amount is \$3,000 or more for all companies listed on Schedule M, including those paying only the minimum tax.

A corporation is not subject to the estimated tax payment requirements the first year it is required to file a return in Utah if the corporation makes a payment on or before the due date, without the automatic extension, equal to or greater than the minimum tax.

Quarterly estimated tax payments are due (in four payments) on the 15th day of the 4th, 6th, 9th and 12th months of the corporation's taxable year. Corporations may elect to make the quarterly estimated tax payments equal to 100 percent of the prior year's tax in four equal payments, or 90 percent of the current year's tax based on the percentages below. As defined in UC §59-7-504(2), the applicable percentage of the required payment for annualized income installments, for adjusted seasonal installments, and for estimated tax payments based on the current year tax liability, is the following:

Installment	Percentage
1st	22.5
2nd	45.0
3rd	67.5
4th	90.0

If a taxpayer elects a different annualization period than the period used for federal purposes, the taxpayer must make an election with the Tax Commission at the same time as provided in IRC §6655. Estimated tax payments should be made with form TC-559, *Corporation/Partnership Payment Coupon*.

Corporations that do not make the required tax prepayments are subject to a penalty. See *Penalties*, below.

Penalties

Utah law (UC §59-1-401) provides penalties for not filing tax returns by the due date, not paying tax due on time, not making sufficient prepayment on extension returns, and not filing information returns or supporting schedules. See more information, plus additional penalties, at tax.utah.gov/billing/penalties-interest and in Pub 58, *Utah Interest and Penalties*, at tax.utah.gov/forms.

The Tax Commission will calculate the penalty for underpayment of required prepayments.

Exceptions to Penalty on Estimated Tax

Annualized Exception

A corporation may annualize its income before determining the amount of each estimated tax installment. Follow federal guidelines to determine annualized income. If the corporation meets the annualized exception at the federal level for any installment, check the appropriate box(es) on form TC-20, line 15.

Recurring Seasonal Exception

A corporation with recurring seasonal income may annualize its income before determining the amount of each estimated tax installment. Follow federal guidelines to determine seasonal income. If the corporation meets the seasonal exception at the federal level for any installment, check the appropriate box(es) on form TC-20, line 15.

Prepayment of Minimum Tax Requirement

Corporations that meet the prepayment requirement in the **current year** and had a tax liability of \$100 (the minimum tax) for the previous year may choose to prepay the minimum tax amount of \$100 on the 15th day of the 12th month instead of four increments of \$25.

Corporations that met the prepayment requirement in the **previous year** and have a tax liability of \$100 (the minimum tax) in the current year may choose to prepay the minimum tax amount of \$100 on the 15th day of 12th month instead of four increments of \$25. In this case, the corporation must pay \$100, not 90 percent.

Interest (in addition to penalties due)

Interest is assessed on underpayments from the due date until the liability is paid in full. The interest rate for the 2018 calendar year is 3 percent.

For more information, get Pub 58, *Utah Interest and Penalties*, at tax.utah.gov/forms.

Suspension for Failure to Pay Tax Due

Utah law provides for suspension of a corporation's right to do business in Utah if it fails to pay taxes due before 5:00 p.m. on the last day of the 11th month after the due date.

If you owe tax but are unable to pay the whole amount, you may request a pay plan at tap.utah.gov, or complete form TC-804B, *Business Tax Payment Agreement Request* (tax.utah.gov/forms).

What to Attach and What to Keep

Include the following with your Utah TC-20. Also, keep copies of these with your tax records.

- **Utah Corporation Return Schedules:** Attach applicable Utah schedules A, B, C, D, E, H, J, and/or M.
- **Federal Return:** Attach only pages 1 through 5 of your federal corporation return, plus Schedule M-3 and IRS form 1125-A, if applicable.

Do not send a copy of your entire federal return, credit schedules, worksheets, or other documentation with your Utah return unless otherwise stated in these instructions. Keep these in your files, along with all other supporting documents. You may be asked to provide this information later to verify entries on your Utah return.

Combined Reports

Any corporation owned by another corporation, or owning more than 50 percent of another corporation, or a group of corporations related through common ownership (i.e., certain brother/sister corporations) and engaged in unitary business activity, must file a combined report showing the combined income of all such corporations.

A captive real estate investment trust must be included as a member of a unitary group. A real estate investment trust (REIT) is a captive real estate investment trust if the shares or beneficial interests of the REIT are not regularly traded on an established securities market and more than 50 percent of the voting power or value of the shares or beneficial interests of the REIT are directly, indirectly, or constructively owned or controlled by a controlling entity of the REIT.

Unitary Business

A unitary business exists if the activities of the corporations (subsidiary or affiliated corporations related through common ownership) are economically interdependent as demonstrated by the following factors:

- Strong centralized management
- Functional integration
- Attainment of operational economies of scale

Instructions for Combining Captive Real Estate Investment Trusts

The income and factors for a captive real estate investment trust are included in a manner similar to other unitary corporations in the combined group. Utah statutes include taxable income from federal form 1120-REIT before the net operating loss deduction and the deduction for dividends paid. A Utah deduction is allowed for the IRC §857(b)(2)(E) deduction. A subtraction is also allowed for dividends received from a captive real estate investment trust by a member of the unitary group. This subtraction is essentially an intercompany elimination since the 1120-REIT taxable income is included before the federal dividends paid deduction.

The property, payroll and sales of a REIT are included in the factors of the combined group to the extent otherwise provided in Utah laws and rules. Intercompany transactions between a captive REIT and any member of the unitary group must be removed from the sales factor. Similarly, intercompany rents must be removed from the combined property factor.

Water's Edge Combined Report

A unitary group must file on a water's edge basis unless the worldwide combination method has been elected. A water's edge combined report includes the income and activities of all members of a unitary group that are:

- corporations organized or incorporated in the United States, including those corporations qualifying for the Puerto Rico and Possession Tax Credit as provided in IRC §936; and
- corporations organized or incorporated outside of the United States meeting the threshold level of business activity.

Water's Edge Election

A group of corporations that are not otherwise a unitary group may elect to file a water's edge combined report under UC §59-7-402(2) if each member of the group is:

- doing business in Utah,
- part of the same affiliated group, and
- qualified under IRC §1501 to file a federal consolidated return.

Each corporation within the affiliated group doing business in Utah must consent to filing the combined report. If an affiliated group elects to file a combined report, each corporation within the affiliated group doing business in Utah must be included in the combined report.

Corporations that elect to file a water's edge combined report under this section may not thereafter elect to file a separate return without the consent of the Tax Commission.

Worldwide

A unitary group may elect to file a worldwide combined report. When the worldwide combined reporting method is elected, the income or loss of each corporation within the unitary group must be included regardless of the country in which the corporations are incorporated or conduct business.

Corporations electing to file a worldwide combined report may not later elect to file a return on a basis other than a worldwide combined report without the consent of the Tax Commission.

Threshold Level of Business Activity

Foreign corporations that conduct 20 percent or more of their business activity in the United States, as measured by the average of the property and payroll factors, must be included 100 percent in a water's edge combined report. Any business activity in Utah will subject a foreign corporation to Utah franchise tax. The combined reporting threshold test determines whether the foreign corporation is a member of a unitary group.

Foreign Dividends

Fifty percent of unitary foreign dividends are included in adjusted income. The remaining 50 percent, less certain expenses, are excluded. (See UC §59-7-106(1)(k) and (3).) A portion of the property, payroll and sales of each dividend paying subsidiary is allowed to be included in the combined apportionment denominators at the ratio the amount of the dividend included in Utah combined income bears to the total earnings and profits for each dividend paying company.

Preparation of Combined Report(s)

A group filing a combined report will calculate adjusted income of the combined group by:

1. determining which corporations are unitary;
2. computing unadjusted income on a separate return basis;
3. combining income or loss of the members included in the combined report;
4. making appropriate eliminations and adjustments between members included in the combined report to arrive at unadjusted income on a combined basis; and
5. making additions and subtractions to unadjusted income as outlined in Schedules B, C and D to arrive at adjusted income.

Corporations that file either a water's edge or worldwide combined report must eliminate all intercompany sales or other intercompany transactions between corporations included in the combined report in determining the sales factor on TC-20, Schedule J. Similarly, corporations filing a Utah combined report may not include intercompany rents or other intercompany transactions between those corporations in determining the property factor. See UC §59-7-404.5.

A unitary group of corporations is considered a single taxpayer for purposes of the assignment of sales in the sales factor of the apportionment calculation. Therefore, sales of tangible personal property by any member of the unitary group delivered or shipped into Utah are includable in the Utah sales numerator. Conversely, such sales originating in Utah, which are delivered or shipped to another state, will not be included in the Utah sales numerator if any member of the unitary group has a taxable presence (nexus) in that state. See Tax Commission Rule R865-6F-24.

IRC Sections 338, 338(h)(10) and 336(e)

An election made or considered to be made under IRC Sections 338, 338(h)(10) and 336(e) is also followed for Utah purposes.

IRC Section 338

If a federal election is made under IRC §338, the target corporation must file a separate entity one-day tax return for Utah purposes, as required for federal purposes. The target corporation must include the gain or loss on the deemed sale of assets in its adjusted income. See UC §59-7-114 for further details.

Get form TC-20MC, *Utah Tax Return for Miscellaneous Corporations*, at tax.utah.gov/forms.

IRC Section 338(h)(10)

If an election is made for federal purposes under IRC §338(h)(10), the following apply:

1. If the target corporation is a member of a unitary group immediately preceding the acquisition date, the target corporation must be included in a combined report to the extent of its income through the acquisition date. The gain or loss on the deemed sale of assets is included in the combined income of the unitary group.
2. If the target corporation is not a member of a unitary group immediately preceding the acquisition date, the target corporation must file a short-period return for the period ending on the acquisition date and must include the gain or loss on the deemed sale of assets in its adjusted income.
3. Any gain or loss on stock sold or exchanged by a member of a selling consolidated group (as defined in IRC §338) which is not recognized for federal purposes may not be included in the adjusted income of the selling corporation.
4. The target corporation is treated as a new corporation as of the day after the acquisition date.

IRC Section 336(e)

If an election is made under IRC §336(e), the transaction must be treated as follows:

1. If the corporation is treated for federal purposes as having disposed of all of its assets and is a member of a unitary group immediately preceding the date of sale, the corporation must be included in a combined return to the extent of its income through the date of sale. The gain or loss on the deemed disposal of assets is included in the combined income of the unitary group.
2. If the corporation is treated for federal purposes as having disposed of all of its assets and is not a member of a unitary group immediately preceding the date of sale, the corporation must file a short-period return for the period ending on the date of sale and must include the gain or loss on the deemed disposal of assets in its adjusted income.
3. Any gain or loss not recognized for federal purposes on stock sold, exchanged or distributed by a corporation pursuant to IRC §336(e) may not be included in adjusted income.
4. The new basis of assets of the corporation treated as having disposed of its assets is the same as determined for federal purposes.
5. The corporation treated as having disposed of its assets is treated as a new corporation as of the day after the date of sale.

Installment Sales

If a corporation is no longer required to file a Utah corporate return, any taxes owed by that corporation on installment sales entered into by that corporation shall accelerate and be due on the corporation's last return filed in Utah.

You must carry a Utah net loss back to the third year before the loss year. If any loss is left over, carry it to the second year before the loss year, and carry any loss still left over to the first year before the loss year. Carry any remaining loss forward.

Submit form TC-20L, *Utah Application for Refund from a Corporation Loss Carryback*, to claim any refund resulting from a Utah net loss carryback. Do not file an amended return to claim a loss carryback.

If you elect to forego the federal net operating loss carryback, the federal election applies for Utah tax purposes unless the corporation specifically elects to carry back the loss for Utah. Enter an “X” in the appropriate field:

Yes, to follow the federal election to carry the Utah net loss forward and forego the carryback, or

No, to opt out of the federal election you made and treat the Utah net loss as a carryback.

If you did not make a federal election or elected to forego the federal net operating loss carryback and you don’t mark an ‘X’ in either box, you must carry the Utah net loss back as described above.

Line 16 – Utah Net Loss Carried Forward from Prior Years

The interest rate must be determined according to IRC §453A. Enter the interest as an additional tax on Schedule A, line 19.

The deferred tax liability for Utah purposes must be calculated in a manner similar to that outlined in IRC §453A(c), except:

1. The tax rate applied must be 5 percent; and
2. In the case of multi-state corporations, the amount of Utah gain that has not been recognized must be determined by multiplying the deferred gain that has not been recognized for federal purposes by the current year apportionment fraction.

Line 20 – Recapture of Low-Income Housing Credit

Owners of a low-income housing project and other taxpayers who have taken the low-income housing credit and disposed of the building or an ownership interest may be required to recapture any credits that reduced their tax liability in a previous year. A credit of 1 percent of Utah municipal interest and federal interest included in Utah taxable income will be allowed. For multi-state corporations, the amount of Utah municipal and federal interest included in Utah taxable income is calculated by multiplying the total amount of that interest by the current year apportionment fraction.

Attach a schedule showing the calculation of the credit. Keep a copy of the schedule and all related documents with your records.

Note: Any credit that is more than the tax liability may be carried back to the previous three years, or carried forward for five years.

(21) Renewable Residential Energy Systems Credit (UC §59-7-614)

Line 24 – Net Tax

Subtract line 23 from line 22. Enter the result, but not less than the minimum tax shown on line 18b or less than zero.

Line 25 – Utah Use Tax

Use tax is a tax on goods and taxable services purchased for use, storage or other consumption in Utah. Use tax applies only if sales tax was not paid at the time of purchase. If you purchased an item from an out-of-state seller (including Internet, catalog, radio and TV purchases) and the seller did not collect sales tax on that purchase, you must pay the use tax directly to the Tax Commission.

If you have a Utah sales tax license/account, report the use tax on your sales tax return. If you do not have a Utah sales tax license/account, report the use tax on line 25 of TC-20, Schedule A.

You may take a credit for sales or use tax paid to another state (but not a foreign country). If the other state's tax rate is lower than Utah's, you must pay the difference. If the other state's tax rate is more than Utah's, no credit or refund is given. If sales tax was paid to more than one state, complete the *Use Tax Worksheet* below for each state. Add lines 8 on all worksheets and enter the total on line 25.

Sales and use tax rates vary throughout Utah. Use the *Use Tax Rate Chart* below to get the rate for the location where the merchandise was delivered, stored, used or consumed. Use the county tax rate if the city is not listed.

Grocery food bought through the Internet or catalog is taxed at 3 percent. The grocery food must be sold for ingestion or chewing by humans and consumed for the substance's taste or nutritional value. The reduced rate does not apply to alcoholic beverages or tobacco. See Pub 25, *Sales and Use Tax*, at tax.utah.gov/forms.

Line 29 – Amended Return Only

Amounts included in federal taxable income from refunds of the following taxes should be netted against similar taxes on the appropriate lines.

Line 2a – Income Taxes Paid to Any State

Enter taxes imposed by and paid to any state that are measured by income.

Line 2b – Franchise or Privilege Taxes Paid to Any State

Line 2e – Business and Occupation Taxes Paid to Any State

Enter business and occupation taxes deducted for federal purposes.

Line 3 – Safe Harbor Lease (SHL) Adjustments

SHLs originated from adjustments primarily available to businesses during the years 1981 and 1982 under ERTA. These provisions allowed transfers of certain tax benefits for federal tax purposes. However, Utah did not adopt these provisions, and the effects of any remaining SHL adjustments must be reversed for Utah purposes.

Add to income:

SHL Purchaser/Lessor

1. Interest expense
2. Depreciation claimed on SHL property

SHL Seller/Lessee

1. Amount of gain on the sale of federal tax benefits
2. Rental expense on SHL property

Line 4 – Capital Loss Carryover

Enter any capital losses deducted on a Utah corporate return in previous years but used to offset capital gains on this year's federal return.

Line 5 – Federal Deductions Taken Previously on a Utah Return

Enter any deduction on this year's federal return that was deducted on a prior year Utah return.

The purpose of this addition is to make sure the gain or loss on IRC §§338(h)(10) and 336(e) transactions are treated similarly for Utah and federal purposes as a deemed sale of assets. The gain or loss is only added if it has not already been included in income.

Line 8 – Adjustments Due to Basis Difference

Utah laws generally follow the Internal Revenue Code for depreciation, amortization and basis. However, basis differences occasionally arise due to differences between Utah and federal laws in limited instances. Some examples include the sale of an asset for which an IRC §338 election was made in a tax year beginning prior to Jan. 1, 1994 (Utah did not follow IRC §§338 or 338(h)(10) for tax years prior to 1994); and adjustments attributed to the federal consolidated rules under IRC §1502. A company may not deduct basis differences generated by errors in prior returns in years when Utah and federal depreciation or amortization amounts are required to be the same.

Line 9 – Expenses Attributable to 50 percent Unitary Foreign Dividend Exclusion

Enter any expenses directly and indirectly attributable to the dividends from subsidiaries excluded on Schedule C, line 7 (i.e., 50 percent exclusion of dividends from unitary foreign subsidiaries). To calculate indirect interest expense attributable to excluded dividends:

1. Divide the taxpayer's average investment in dividend paying subsidiaries by the taxpayer's average investment in total assets.
2. Multiply the result by the total interest expense.

Line 10 – Installment Sales Income Previously Reported for Federal but Not Utah Purposes

Add any installment sales income from installment sales made in tax years beginning before Jan. 1, 1994, if the Utah installment provisions of former UC §59-7-119 were used. If the Utah installment provisions were used on the Utah return, then a timing difference was created between federal and Utah.

Line 11 – Nonqualified Withdrawal from Utah Educational Savings Plan (UESP) 529 Account (UC §59-7-105(10))

If you withdrew an amount from a Utah Educational Savings Plan (UESP) 529 account but did not use it for qualified higher education expenses, and the withdrawal did not meet an exception under IRC §529(c) or §530(d), enter that amount to the extent the amount was deducted on the current or a previously filed Utah tax return.

If you are a UESP account owner, you will receive form TC-675H, *Utah Educational Savings Plan Tax Statement for Contributions, Withdrawals, and Transfers*, from UESP. Keep this form with your records. If you have any questions about UESP accounts, call UESP at 800-418-2551, or visit uesp.org.

Line 12 – Income (Loss) From IRC Section 936 Corporations

IRC §936 corporations are fully includable in the combined report. Add any income or loss from IRC §936 corporations.

Line 13 – Foreign Income (Loss) For Worldwide Combined Filers

Corporations electing to file a worldwide combined report must include income and losses of each corporation in the unitary group regardless of the country in which the corporation is incorporated or conducts business. Add any income or loss before extraordinary items and prior period adjustments and before the provision for income, war profits and excess profits taxes as reported on federal form 5471 for foreign corporations.

Line 14 – Income (Loss) of Unitary Corporations Not Included in Federal Consolidated Return

Enter the foreign dividend gross-up included in gross income for federal income tax purposes under IRC §78.

Line 3 – Net Capital Loss

Line 7 – Fifty percent Exclusion for Dividends from Unitary Foreign Subsidiaries

Enter 50 percent of the dividends received or deemed received from subsidiaries that are members of the unitary group and are organized or incorporated outside of the United States, unless those subsidiaries are included in a combined report. In that case, the dividends are eliminated as an intercompany transaction on line 1.

For corporations filing a water's edge combined report, the 50-percent exclusion includes dividends from unitary foreign corporations and subpart F income.

Line 8 – Fifty percent Exclusion of Foreign Operating Company Income (Loss)

If you are filing a water's edge combined report, enter 50 percent of the adjusted income or loss of a foreign operating company. The exclusion is determined after:

The purpose of this subtraction is to avoid the double taxation that would occur if both the gain on the stock sale and the gain on the deemed sale of assets were included in income. Utah law follows the federal statute that taxes the gain on the deemed sale of assets.

Line 10 – Adjustments Due to Basis Difference

Enter adjustments to gains, losses, depreciation expense, amortization expense and similar items due to a difference between basis for federal and Utah purposes as explained in instructions for Schedule B, line 8.

Schedule H – Nonbusiness Income Net of Expenses

Complete TC-20, Schedule H to determine nonbusiness income allocated to Utah and outside Utah.

Nonbusiness income is all income that does not arise from the conduct of a taxpayer's trade or business operations. Intangible income must be properly classified and based upon factual evidence. The burden of proof is on the taxpayer to justify the manner in which the income is claimed on the return.

Interest income is business income where the intangible with respect to which the interest was received arises out of or was created in the regular course of the taxpayer's trade or business operations, or where the purpose for acquiring and holding the intangible is an integral, functional, or operative component of the taxpayer's trade or business operations, or otherwise materially contributes to the production of business income of the trade or business operations. See Tax Commission Rule R865-6F-8(2)(e)(iii).

Dividends are business income where the stock with respect to which the dividends were received arose out of or was acquired in the regular course of the taxpayer's trade or business operations or where the acquiring and holding of the stock is an integral, functional, or operative component of the taxpayer's trade or business operations, or otherwise materially contributes to the production of business income of the trade or business operations. See Tax Commission Rule R865-6F-8(2)(e)(iv).

Gain or loss from the sale, exchange, or other disposition of real property or of tangible or intangible personal property constitutes business income if the property while owned by the taxpayer was used in, or was otherwise included in the property factor of the taxpayer's trade or business. See Tax Commission Rule R865-6F-8(2)(e)(ii).

Rental income from real and tangible property is business income if the property with respect to which the rental income

was received is or was used in the taxpayer's trade or business and therefore is includable in the property factor. See Tax Commission Rule R865-6F-8(2)(e)(i).

Schedule J – Apportionment Schedule

Use TC-20, Schedule J to calculate the portion of the taxpayer's income attributable to Utah if the taxpayer does business both within and outside of Utah.

Complete TC-20, Schedule J to determine the apportionment fraction (decimal). The factors express a ratio for tangible property in Utah to total tangible property everywhere, for wages and salaries in Utah to total wages and salaries everywhere, and for sales in Utah to total sales everywhere. These factors or ratios are used to arrive at the Utah apportionment fraction calculated to **six decimals**. This fraction (decimal) is then applied to the apportionable income (or loss) on Schedule A to arrive at the amount of income (or loss) apportioned to Utah. In cases where one or more of the factors is omitted due to peculiar aspects of the business operations, use the number of factors present to determine the Utah apportionment fraction.

Utah provides three different apportionment methods. Your economic activities dictate the apportionment method you may use. See *Sales Factor Weighted Taxpayers*, *Optional Sales Factor Weighted Taxpayers*, and *Other Multistate Taxpayers*, below.

Pass-through Entity Taxpayers

Partners, shareholders and beneficiaries of pass-through entities (an entity taxed as a partnership, s-corporation or trust) must include their pro rata share of the pass-through entity's property, payroll and sales in their calculation of the apportionment factor on TC-20, Schedule J, page 1.

If a corporation holds direct and indirect ownership interests in tiered pass-through entities, it must include its pro rata share of the apportionment factors (property, payroll and sales) of the pass-through entities, applying the respective ownership percentages. For example, a corporation that holds 50 percent interest in Partnership A that in turn holds 20 percent interest in Partnership B would include 50 percent of the factors of Partnership A, and 10 percent (50 percent of 20 percent) of the factors of Partnership B.

Sales Factor Weighted Taxpayers

A sales factor weighted taxpayer may only use the sales factor weighted apportionment formula.

A multistate taxpayer is a sales factor weighted taxpayer UNLESS more than 50 percent of combined sales result from economic activities classified in the 2002 or 2007 North American Industry Classification System (NAICS) within the following excluded NAICS codes:

- Section 21, Mining;
- Section 2212, Natural Gas Distribution;
- Section 31-33, Manufacturing;
- Section 48-49, Transportation and Warehousing;
- Section 51, Information (except for Subsector 519, Other Information Services); or
- Section 52, Finance and Insurance.

To determine if you are a sales factor weighted taxpayer, add together your combined sales from all your lines of business (if you are a unitary group, these are the sales of the entire unitary group, not just the parent company or the companies

doing business in Utah). If more than 50 percent of your combined sales result from economic activities classified outside the excluded NAICS codes above, you are a sales factor weighted taxpayer. Enter on line 7 the NAICS code for your principal business activity outside the excluded NAICS codes.

Report property and payroll factors on Schedule J, page 1, but do not use them to calculate the apportionment of sales factor weighted taxpayers.

Sales factor weighted taxpayers must calculate the apportionment fraction on Schedule J, Page 2 using Part 3 - *Sales Factor Weighted Taxpayers Only*.

Optional Sales Factor Weighted Taxpayers

A multistate taxpayer is an optional sales factor weighted taxpayer if more than 50 percent of combined sales result from economic activities classified in the 2002 or 2007 NAICS subsector 334, *Computer and Electronic Product Manufacturing*.

To determine if you are an optional sales factor weighted taxpayer, add together your combined sales from all your lines of business (if you are a unitary group, these are the sales of the entire unitary group, not just the parent company or the companies doing business in Utah). If more than 50 percent of your combined sales result from economic activities within NAICS subsector 334, you are an optional sales factor weighted taxpayer. Enter on line 7 the NAICS code for your principal business activity.

Optional sales factor weighted taxpayers may calculate the apportionment fraction using any of the three apportionment formulas: equally-weighted three factor formula (Schedule J, Part 1), double-weighted sales factor formula (Schedule J, Part 2), or single sales factor (Schedule J, Part 3).

Other Multistate Taxpayers

Taxpayers who are not sales factor weighted taxpayers or optional sales factor weighted taxpayers may calculate the apportionment fraction using the equally-weighted three factor formula (Schedule J, Part 1) or the double-weighted sales factor formula (Schedule J, Part 2).

Business Activity

Briefly describe the nature and location(s) of your Utah business activities in the space provided at the top of this schedule.

Lines 1a - 1f – Property Factor

Show the average cost value during the taxable year of real and tangible personal property used in the business within Utah (including leased property) in column A and overall (including Utah) in column B.

Property you own is valued at its original cost. Property you rent is valued at eight times the net annual rental rate. Net annual rental rate is the annual rental rate you pay less the annual rate you receive from sub-rentals.

The average value of property must be determined by averaging the cost values at the beginning and end of the tax period.

However, monthly values may be used or required if monthly averaging more clearly reflects your property's average value.

Attach a supporting schedule whenever you use monthly averaging.

If you are a pass-through entity taxpayer, add to line 1e any amounts listed on line J of any TC-65 Schedule K-1 you have received.

Enter totals of lines 1a through 1e in the respective columns on line 1f.

Line 2 – Property Factor Calculation

Determine the property factor (decimal) by dividing line 1f, column A by line 1f, column B.

Line 3 – Payroll Factor

Wages, salaries, commissions and other includable compensation paid to employees for personal services must be included in the Utah factor to the extent the services, for which the compensation was paid, were rendered in Utah.

Compensation is paid in Utah if:

1. the individual's service is performed entirely within Utah;
2. the individual's service is performed both within and outside Utah, but the service performed outside Utah is incidental to the individual's service within Utah; or
3. some of the service is performed in Utah and:
 - a. the base of operations or, if there is no base of operations, the place where the service is directed or controlled, is within Utah; or
 - b. the base of operations or the place where the service is directed or controlled is not in any state where some part of the service is performed, but the individual's residence is in Utah.

Amounts reportable for employment security purposes may ordinarily be used to determine the wage factor.

Overall wages, including Utah, are listed in column B.

If you are a pass-through entity taxpayer, add to line 3a any amounts listed on line K of any TC-65 Schedule K-1 you have received.

Line 4 – Payroll Factor Calculation

Determine the payroll factor (decimal) by dividing line 3a, column A by line 3a, column B.

Lines 5a - 5h – Sales Factor

The sales factor is the fraction the sales or charges for services within Utah for the taxable year bear to the overall sales for the taxable year. Gross receipts from the performance of services in Utah are assigned to the Utah sales numerator if the purchaser of the service receives a greater benefit of the service in Utah than in any other state.

Taxpayers that perform a service both in and outside Utah must include service income on line 5g in column A (Inside Utah) if the purchaser of the service receives a greater benefit of the service in Utah than in any other state. The former "cost of performance" method no longer applies. (See UC §59-7-319(3)(a).)

Sales of tangible personal property are in Utah if the property is delivered or shipped to a purchaser within Utah regardless of the F.O.B. point or other conditions of the sale, or if the property is shipped from an office, store, warehouse, factory or other place of storage in Utah and:

1. the purchaser is the United States Government, or
2. the taxpayer is not taxable in the state of the purchaser.

Overall sales, including Utah, are listed in column B.

Note: Securities brokerage businesses must follow the provisions in UC §59-7-319(6).

If you are a pass-through entity taxpayer, add to line 5g any amounts listed on line L of any TC-65 Schedule K-1 you have received.

Enter totals of lines 5a through 5g in their respective columns on line 5h.

Line 6 – Sales Factor Calculation

Determine the sales factor (decimal) by dividing line 5h, column A by line 5h, column B.

NAICS Code for Taxpayer

Line 7 – NAICS Code

This is a mandatory field. Your NAICS code may dictate your apportionment method.

If you are a sales factor weighted taxpayer or an optional sales factor weighted taxpayer, see *Sales Factor Weighted Taxpayers and Optional Sales Factor Weighted Taxpayers*, above, for the correct NAICS code to enter on line 7.

If you are NOT a sales factor weighted taxpayer or an optional sales factor weighted taxpayer, enter the six-digit NAICS code from your federal return (form 1120, Schedule K, line 2a; 1120S, box B; 1065, box C; or corresponding line on other federal returns).

► Part 1 – Equally-Weighted Three Factor Formula

If you are **not** a sales factor weighted taxpayer and are **not** electing the double-weighted sales factor (see lines 10 through 13 below), complete lines 8 and 9. If you are a sales factor weighted taxpayer or are electing the double-weighted sales factor, leave lines 8 and 9 blank.

Line 8 – Total Factors

Enter the sum of the factors from lines 2, 4 and 6.

Line 9 – Apportionment Fraction

Calculate the apportionment fraction to six decimals by dividing line 8 by the number of factors used (typically 3 – property, payroll and sales).

- If one or more of the factors are not present (i.e., there is a zero in the denominator on lines 1f, 3a or 5h in column B), divide by the number of factors present.
- If the numerator is zero, but a denominator is present, include that factor in the number of factors present.

Enter the apportionment fraction (decimal) here and on Schedule A, line 12.

► Part 2 – Double-Weighted Sales Factor Formula Election

If you are **not** a sales factor weighted taxpayer, you may elect to give double-weight to the sales factor in the apportionment calculation.

Line 10 – Making the Election

Enter an “X” on line 10 if you elect to double-weight the sales factor.

Line 11 – Double Sales Factor

Multiply the sales factor (decimal) from line 6 by 2. This will result in the sales factor being considered twice in the calculation.

Line 12 – Total Factors

Enter the sum of the factors from lines 2, 4 and 11.

Line 13 – Elected Apportionment Fraction

Calculate the elected, double-weighted sales factor to six decimals by dividing line 12 by the number of factors used (typically 4 – property, payroll and two times the sales factor).

- If one or more of the factors are not present (i.e., there is a zero in the denominator on lines 1f or 3a in column B), divide by the number of factors present (allowing two factors for sales).
- If the numerator is zero, but a denominator is present, include that factor in the number of factors present.

Enter the apportionment fraction (decimal) here and on Schedule A, line 12.

► Part 3 – Sales Factor Weighted Taxpayers

See instructions above for the definition and qualifications of a sales factor weighted taxpayer.

Complete line 14 if you are a sales factor weighted taxpayer or an optional sales factor weighted taxpayer who chooses the single sales factor method of apportionment. Leave line 14 blank if you are an other multistate taxpayer or optional sales factor weighted taxpayer who elected to use Part 1 or Part 2 for your apportionment calculation.

Line 14 – Apportionment Fraction

Enter the sales factor from line 6 of Schedule J, page 1. This is the apportionment fraction for this apportionment method. (Property and payroll factors are not used in the calculation of the apportionment fraction for a sales factor weighted taxpayer.)

Enter the apportionment fraction (decimal) here and on Schedule A, line 12.

Specialized Apportionment Laws and Rules

Specialized apportionment procedures apply for:

- Trucking Companies (R865-6F-19)
- Railroads (R865-6F-29)
- Publishing Companies (R865-6F-31)
- Financial Institutions (R865-6F-32)
- Telecommunications (R865-6F-33)
- Registered Securities or Commodities Broker or Dealer (R865-6F-36)
- Airlines (UC §§59-7-312 thru 319)
- Sale of Management, Distribution or Administration Services to or on Behalf of a Regulated Investment Company (UC §59-7-319(5))

Schedule M – Corporations Included in Combined Filings

Any corporation filing a combined report must complete Schedule M if one or more of the subsidiaries or affiliated corporations is incorporated, qualified, or doing business in Utah. Federal schedules are not acceptable as substitutes.

You may not use any other form as a substitute for Schedule M without prior approval from the Tax Commission. See *Guidelines for Substitute Utah Tax Forms*, at tax.utah.gov/developers/substitute-forms.

List only corporations incorporated, qualified or doing business in Utah. Corporations not listed on Schedule M will not be considered to have met the Utah filing requirements. Use the Schedule M Supplemental Sheet if you need more space.

Minimum Tax

Line a – Number of Corporations

Enter on line “a” the total number of corporations incorporated, qualified and doing business in Utah (including the parent corporation if incorporated, qualified or doing business in Utah) that are listed on the Schedule M.

Line b – Total Minimum Tax

Multiply the number of corporations listed on line “a” by \$100 (the minimum tax). Also, enter this amount on Schedule A, line 18b.

Common Return Errors

1. **Losses applied incorrectly** – If an election is made to forego the federal net operating loss carryback, a similar election is considered to be made for Utah purposes, unless the taxpayer makes a specific election to carryback the Utah loss. Losses may be carried forward for 15 taxable years. See the instructions for Schedule A, lines 15 and 16. Use form TC-20L, *Utah Application for Refund from a Corporation Loss Carryback* to calculate the carryback.
2. **Unitary businesses not filing a combined report** – Groups of corporations that are engaged in an integrated unitary business must file on a combined basis. See instructions on page 3.
3. **Utah sales factor on Schedule J** – Out-of-state corporations qualified in Utah, but not doing business in Utah must file a corporate return paying the minimum tax. However, sales into Utah are not required to be included in the gross receipts numerator, except as provided under Utah Rule R865-6F-24. Conversely, corporations making sales from Utah into a state where they are qualified but not doing business must include such sales in the Utah gross receipts numerator as throwback sales, except as provided under Utah Rule R865-6F-24.
4. **Net capital losses may not be carried back** – Capital losses may be deducted in full in the year incurred or may be carried forward. See UC 59-7-106(2).
5. **Dissolution or withdrawal** – Corporations no longer in business or no longer doing business in Utah are required to legally dissolve or withdraw the corporation. See instructions on page 1.
6. **Nonrefundable and refundable credit codes** – Use the two-digit codes provided in the instructions, not the UC section reference.
7. **Sales factor weighted taxpayers** – In determining its apportionment fraction on Schedule J, a corporation is a *sales factor weighted taxpayer* if more than 50 percent of its sales everywhere (see Utah Code §59-7-317), including its share of pass-through entity sales, are classified in NAICS codes OTHER THAN Sections 21 (mining), 2212 (natural gas distribution), 31-33 (manufacturing), 48-49 (transportation and warehousing), 51 (information, except Subsector 519), or 52 (finance and insurance). Do not use the holding company NAICS code.
