

ARTICLE IV AMENDMENTS
APPROVED BY THE MULTISTATE TAX COMMISSION
July 30, 2014

Art. IV. Sec. 1 – [Subsections (a), (e) and (g) now read as follows:]

(a) “Apportionable income” means:

(i) all income that is apportionable under the Constitution of the United States and is not allocated under the laws of this state, including:

(A) income arising from transactions and activity in the regular course of the taxpayer’s trade or business, and

(B) income arising from tangible and intangible property if the acquisition, management, employment, development or disposition of the property is or was related to the operation of the taxpayer’s trade or business; and

(ii) any income that would be allocable to this state under the Constitution of the United States, but that is apportioned rather than allocated pursuant to the laws of this state.

(e) “Non-apportionable income” means all income other than apportionable income.

(g) “Receipts” means all gross receipts of the taxpayer that are not allocated under paragraphs of this article, and that are received from transactions and activity in the regular course of the taxpayer’s trade or business; except that receipts of a taxpayer from hedging transactions and from the maturity, redemption, sale, exchange, loan or other disposition of cash or securities, shall be excluded.

Art. IV. Sec. 9 – [Now reads as follows:]

All business income shall be apportioned to this State by multiplying the income by a fraction, [State should define its factor weighting fraction here. Recommended definition: “the numerator of which is the property factor plus the payroll factor plus two times the sales factor, and the denominator of which is four.”]

Art. IV. Sec. 17 – [Now reads as follows:]

(a) Receipts, other than receipts described in Section 16, are in this State if the taxpayer’s market for the sales is in this state. The taxpayer’s market for sales is in this state:

(1) in the case of sale, rental, lease or license of real property, if and to the extent the property is located in this state;

(2) in the case of rental, lease or license of tangible personal property, if and to the extent the property is located in this state;

(3) in the case of sale of a service, if and to the extent the service is delivered to a location in this state; and

(4) in the case of intangible property,

(i) that is rented, leased, or licensed, if and to the extent the property is used in this state, provided that intangible property utilized in marketing a good or service to a consumer is “used in this state” if that good or service is purchased by a consumer who is in this state; and

(ii) that is sold, if and to the extent the property is used in this state, provided that:

(A) a contract right, government license, or similar intangible property that authorizes the holder to conduct a business activity in a specific geographic area is “used in this state” if the geographic area includes all or part of this state;

(B) receipts from intangible property sales that are contingent on the productivity, use, or disposition of the intangible property shall be treated as receipts from the rental, lease or licensing of such intangible property under subsection (a)(4)(i); and

(C) all other receipts from a sale of intangible property shall be excluded from the numerator and denominator of the receipts factor.

(b) If the state or states of assignment under subsection (a) cannot be determined, the state or states of assignment shall be reasonably approximated.

(c) If the taxpayer is not taxable in a state to which a receipt is assigned under subsection (a) or (b), or if the state of assignment cannot be determined under subsection (a) or reasonably approximated under subsection (b), such receipt shall be excluded from the denominator of the receipts factor.

(d) [The tax administrator may prescribe regulations as necessary or appropriate to carry out the purposes of this section.]

Art. IV, Sec. 18 [Adds Subsection (b), as follows:]

(a) If the allocation and apportionment provisions of this Article do not fairly represent the extent of the taxpayer's business activity in this State, the taxpayer may petition for or the tax administrator may require, in respect to all or any part of the taxpayer's business activity, if reasonable:

(1) separate accounting;

(2) the exclusion of any one or more of the factors;

(3) the inclusion of one or more additional factors which will fairly represent the taxpayer's business activity in this State; or

(4) the employment of any other method to effectuate an equitable allocation and apportionment of the taxpayer's income.

(b)

(1) If the allocation and apportionment provisions of this Article do not fairly

represent the extent of business activity in this State of taxpayers engaged in a particular industry or in a particular transaction or activity, the tax administrator may, in addition to the authority provided in section (a), establish appropriate rules or regulations for determining alternative allocation and apportionment methods for such taxpayers.

(2) A regulation adopted pursuant to this section shall be applied uniformly, except that with respect to any taxpayer to whom such regulation applies, the taxpayer may petition for, or the tax administrator may require, adjustment pursuant to Section 18(a).
