**Subject:** Re: Section 17 Model Market Sourcing Regulation Workgroup Call - Today

Group

Based on the discussions we had last Tuesday I have come up with alternative language that I hope will more specifically limit when professional services would be assigned. This would be my suggestion for substitute language

and professional services involving the initiation, defense, or maintenance of a judicial or administrative proceeding with or within a state.

The assignment to a state would only occur once an action was filed and would continue on
