

To: Executive Committee
From: Glenn Hegar, Treasurer
Date: May 2, 2024
Subject: Proposed FY 2026 Budget

I. Commission Budget Process

Each year at a spring meeting, the Executive Committee sets the fee levels for major programs:

- Membership assessments for compact members and sovereignty members,
- Audit fees for Joint Audit Program states, and
- Nexus fees for National Nexus Program states.

This is also the time when the Executive Committee reviews and approves the expenditures budget for the upcoming fiscal year, subject to any major issues developing between now and the Annual Commission Business Meeting. If anything like this were to occur, then the proposed budget could be revised, and a teleconference meeting of the Executive Committee could be held before the late July 2025 Commission meeting.

II. Commission Fee Structure

General Membership Assessment (Compact & Sovereignty Members)

The general membership assessment (GMA) finances the uniformity, research, legal and administrative support for programs, legislative efforts at both federal and state levels, litigation and amicus curiae support for states, and other activities of the Commission as well as supporting the annual seminar.

The total membership assessment is distributed to the states according to a formula in the Multistate Tax Compact whereby 10 percent of the fees are divided on an equal basis, and 90 percent on the basis of relative shares of certain state and local revenues (as specified in Art. VI, Sec. 4(b) of the Compact). The state and local revenues are determined using information from the U.S. Bureau of the Census. Note also that the bylaws were amended last year so that no sovereignty member will pay more than the largest membership assessment of any compact member or 15 percent of the total of membership assessments and fees for compact and sovereignty members, whichever is greater.

Joint Audit Program Fees

Overall audit fees are set on a cost basis to cover the operations of the program (as required by Article VIII of the Multistate Tax Compact). The audit fees support the audit services provided to states through the Joint Audit Program. They are distributed among the states by a schedule approved by the Executive Committee. The distribution of the

fees among participating states is based on a long-range schedule of fee changes adopted in May 1991.

States participating in both income and sales tax audits pay a base fee amount that is equal for each state and is based on a cost reimbursement method. States participating in only income or sales tax audits pay an amount equal to 60 percent of the base fee amount for participating in both types of audits. States that are not compact or sovereignty members also pay an additional 20 percent general operations support surcharge. Audit fees are reduced by 10 percent for those participating states which are among the 10 smallest states by population including the District of Columbia.

National Nexus Program Fees

Total nexus fees are set to cover the costs of operating the program (the intent of the Compact—expressed in Article VIII—is that Commission compliance activities are funded by states on a cost basis). Nexus fees support the compliance activities of the National Nexus Program. The nexus fees are apportioned among participating states according to a formula whereby 60 percent of the costs are divided on an equal basis, and 40 percent on the basis of relative shares of state tax revenues of participating states (obtained from the U. S. Bureau of the Census). States participating in only the income or sales tax aspects of the program pay 60 percent of the equal share but otherwise pay the 40 percent component just as those participating in both.

Nexus fees are also capped such that no state pays more than five percent of the total program fees. States that are not compact or sovereignty members also pay an additional 20 percent general operations support surcharge.

Training Fees

Training fees are set on an estimated full cost recovery basis in accordance with the policy set by the Executive Committee.

III. Proposed FY 2026 Budget

Overall

As has been MTC's practice when presenting a budget for review and approval, the FY 2026 budget has been prepared with an overall budget surplus or deficit set reasonably near to a "break-even" level. That has been done for the requested budget with an overall surplus of \$40,748 when dividend income is included (in previous years, dividend income was included in operating revenue but is categorized as other revenue).

Having no rent payments for the current fiscal year due to the re-negotiation of our lease creates some disparities in comparison between the FY 2025 year-end numbers and the FY 2026 proposed budget that will be highlighted below. Accommodating California with a significantly reduced GMA also warps comparison for the current year to the proposed budget. Overall, however, the budget is in balance.

Revenues

The fees of the Commission are traditionally expenditure driven by and based on the anticipated costs of operating the various programs.

Membership Assessments:

This is the first year that the bylaw change limiting the GMA of sovereignty members to no more than the largest GMA of any compact member or 15 percent of the total GMAs for compact and sovereignty members, whichever is greater, is in effect. This results in a GMA for California (the only state affected by the limit) of \$256,440.

Recall that for the current fiscal year, the Executive Committee approved a one-time, substantially reduced GMA for California of \$60,000. The resulting FY 2025 total membership fee assessment was requested at \$1,136,850, an amount that was \$569,150 less than the approved membership fees for FY 2024. This amount was workable because the Commission had renegotiated its D.C. office lease and that included a 15-month rent abatement, making all of FY 2025 rent free. The proposed budget for the GMA for FY 2026 is “back to normal” at an amount nearly the same as the FY 2024 GMA amount.

Note that the 15 percent limit on California’s GMA for FY 2026 raises the apportioned GMA of all other compact and sovereignty states. But it should also be noted that the membership fee of each state for FY 2026 is close to (in some cases less than) the membership fee assessed for each of those states in FY 2022, the last year the fees were budgeted and approved prior to California joining as sovereignty member.

Audit Program Fees:

The basic 2-tax audit fee is requested for FY 2026 at \$238,300 which is \$100 less than the FY 2024 approved amount of \$238,400 (a better comparator than FY 2025; the FY 2025 approved fee was \$235,500). The total requested FY 2026 Audit Program Fees will increase to \$5,779,234. Note Missouri is dropping out the audit program beginning in FY 2026 and that there a state that will be joining the audit program for 1-tax in FY 2026, but it is not identified because the joining process is still ongoing—thus the different revenue amounts between the program fee table and the budget summary).

Nexus Program Fees:

The total Nexus Program fee for FY 2026 is requested to be set at \$1,083,363 which is a \$57,317 increase over the approved FY 2025 fee and with the fees at the individual state level showing modest change from the FY 2025 fee amounts.

General Operations Support Surcharge:

This 20% surcharge is added to the Joint Audit Program fee and National Nexus Program fee for states which are neither a Compact nor Sovereignty member. This amount is assessed on non-Compact and non-Sovereignty members and transferred from either the Audit Program or the Nexus Program to support the General Operations of the Commission. For FY 2026 the general operations support surcharges total \$290,249 from the Audit Program, and total \$85,708 from the Nexus Program. These surcharges help mitigate the need for additional increases in the total Membership fees.

Expenditures

In general, the requested expenditure amounts in the attached requested FY 2026 budget reflect a continuation of current activities.

Important factors related to the FY 2026 expenditures budget are:

- The 15-month rate abatement from renegotiation of the D.C. office lease in 2024 provides 3 months rent-free: July through September 2024.
- The FY 2026 requested expenditures total is \$ 8,701,903. That amount is an increase of \$207,470 from the total FY 2024 approved expenditures of \$8,494,433 (a better comparator than FY 2025 given the rent abatement and reduced membership fee revenue).
- An estimated 5.0% health insurance premium increase over the current premium amount. This estimated percentage increase is considered reasonable and falls within the relevant range of premium increases in the health insurance marketplace.
- A cost of living adjustment (COLA) of 3.5% is being requested for FY 2026; recall that there was no COLA for MTC employees for the current fiscal year.
- One additional auditor position has been added to the FY 2026 budget request.

Staffing levels in the proposed budget for FY 2026 are as follows:

Staffing Category	FTEs
General Operations (Administration, Event, Executive, and Legal)	16.5
Audit Program	26.5
Nexus Program	3.0
TOTAL	46.0

IV. The FY 2027, FY 2028, FY 2029, FY 2030 Budget Projections

Revenue Increases

Please note these projections are informational only and not controlling. The fee increases (percentages) projected for fiscal years *beyond* the FY 2026 budget year are:

Description	FY 2027	FY 2028	FY2029	FY 2030
Membership Assessments - Total	2%	2%	2.9%	2.9%
Audit Program Fees - Total	5%	3%	3%	2.9%
Nexus Program Fees - Total	5%	3%	2.9%	2.9%

The percentage fee increases in FY 2027 and following are to some extent the effect of nine months paid rent (and three months free rent) for MTC's D.C. office in FY 2026 followed by a return to twelve months paid rent in FY 2027 for the D.C. office.

Expenditure Increases

Again, please note these projections are informational only and not controlling. The percentage increases used for each annual expenditure increase shown *beyond* the FY 2026 budget year are:

Description	FY2027	FY 2028	FY 2029	FY 2030
Payroll Expenses	1.8%	2.5%	2.5%	2.5%
Operating Expenses	4.5%	4.6%	4.6%	4.7%

Note that a substantial the employee insurance component of portion of “Employee Insurance” is group health insurance for which large annual rate increases may occur each year.
